The University
Christ University was born out of the educational vision of St. Kuriakose Elia Chavara, an educationalist and social reformer of the nineteenth century in South India. He founded the first Catholic indigenous congregation, Camillites of Mary Immaculate (CM) in 1831 which administered Christ University. Established in 1969 as Christ College it undertook path breaking initiatives in Indian higher education with the introduction of innovative and modern curricula, insistence on academic discipline, imparting of Holistic Education and adoption of global higher education practices with the support of creative and dedicated staff. The University Grants Commission (UGC) of India conferred Autonomy to Christ College in 2004 and identified it as an institution with Potential for Excellence in 2006. In 2008 under Section 3 of the UGC Act, 1956, the Ministry of Human Resource Development of the Government of India, declared the institution a Deemed to be University, in the name and style of Christ University. One of the first institutions in India to be accredited in 1998 by the NAAC, and subsequently in 2004 and 2016, Christ University has the top grade 'A' in the 4-point scale.

The multi-disciplinary University which focus on teaching research and service offers Bachelor to Doctoral programmes in Humanities, Social Sciences, Sciences, Commerce, Management, Engineering, Education and Law to over 13000 students. The campus is a living example for the harmonious multiculturalism with students from all the states of India and from around 80 different countries. Christ University publishes six peer-reviewed research journals and has published around 100 books in Kannada. A promoter of sports, music and literary activities, this is a nurturing ground for creative excellence.

Centre for Education Beyond Curriculum (CEBEC)

The Centre has been conceived as an attempt to stimulate and rediscover through experience, the perspectives in education so that individuals and institutions reflect and move towards a sustainable progress in the educational arena.

Focus

The focus of the conference is the development of leaders who are strong in their abilities to reason, to make them delve deeper in to the discipline of learning and to motivate them to contribute towards the process of nation building.

Content

In the context of qualitative and quantitative expansion of higher education, there is an increased awareness to look at education from a national perspective. National universities are often closely associated with social, cultural and political aspirations of the nation. For instance the National University of Ireland in the early days of Irish independence collected a large amount of information on the Irish language and Irish culture. The focus of a national university will thrive on the notion that educational thinkers and people within a university reflect the evolutionary journey towards intellectual independence and the attainment of human knowledge as a national good and evolve progressive methods to sustain the character of higher education that represents national identity. The conference is an attempt to draw attention to the compartmentalized nature of higher education and to review the idea of a University which encompasses all the areas of human knowledge to help the nation to move forward. The thinkers and researchers in this journey could create new ideas and discover new knowledge that will incorporate diversity and inclusiveness to enhance the quality of education.

Proposed Topics

Papers/Case Studies on the themes mentioned below are specially invited from individuals engaged in any sphere of higher education and professionals with an organic link with higher education. Their ideas and concepts, hopefully built on empirical studies, when shared with their co-travellers will certainly help to strengthen their practices and to move forward in their journey.

Call for papers and for oral sessions

- Themes:
- > Idea of a university
