The University

Christ University was born out of the educational vision of St. Kurianose Elias Chavara, an educationalist and social reformer of the nineteenth century in South India. He founded the first Catholic indigenous congregation, Camellies of Mary Immaculate (CM) in 1831 which administers Christ University.

Established in 1969 as Christ College, it undertook path breaking initiatives in Indian higher education with the introduction of innovative and modern curricula, insistence on academic discipline, imparting of Holistic Education and adoption of global higher education practices with the support of creative and dedicated staff. The University Grants Commission (UGC) conferred Autonomy to Christ College in 2005 and identified it as an Institution with Potential for Excellence in 2006. In 2008 under Section 3 of the UGC Act, 1956, the Ministry of Human Resources Development of the Government of India, declared the Institution a Deemed to be University, in the name and style of Christ University. One of the first institutions in India to be accredited in 1998 by the NAAC, and subsequently in 2004 and 2016, Christ University has the top grade 'A' in the 4-point scale.

The multi-disciplinary University which focuses on teaching, research and service offers Bachelor to Doctoral programmes in Humanities, Social Sciences, Science, Commerce, Management, Engineering, Education and Law to over 18000 students. The campus is a living example for the harmonious multiculturalism with students from all the states of India and from around 40 different countries. Christ University publishes six peer-reviewed research journals and has published around 200 books in Kannada. A promoter of sports, music and literary activities, it is a nurturing ground for creative excellence.

Centre for Education Beyond Curriculum (CEBEC)

The Centre has been conceived as an attempt to stimulate and rediscover through experience, the perspectives in education so that individuals and institutions reflect and rediscover themselves and move towards a sustainable progress in the educational arena.

Background

In an effort to match the global standards, universities and colleges adopt several kinds of innovations that cut across all dimensions of educational process. These initiatives have the potential to reshape education processes and redefine their value to create new perspectives for quality in higher education. Employing strategic innovation in an institutional environment will reinvent, redesign its overall strategy to drive education to multiple growth levels and will generate value for itself and for its stakeholders. This will also create competitive advantage and transformational development. The seminar is an opportunity for institutions to further improve upon their capacity to strategically driven innovations.

Goal

Moving away from a run-of-the-mill approach the seminar will enable the institutions to enhance their creativity potential and motivate them to redefine innovation for strategic deployment.

Special Invitation:

Papers/Case Studies on Strategic Innovation in Higher Education are specially invited from individuals engaged in any sphere of higher education and professionals with an organic link with higher education. Their ideas and concepts, hopefully built on empirical studies, when shared with their co-travellers will certainly help all the participants to strengthen their practices and to move forward in their journey.

Call for papers and Presentations

Papers are invited on the following themes:

- > Building strategic Innovation into the overall strategic plan
- > Developing innovations for strategic growth in higher education
- > Differentiating creativity and innovation for strategic growth of higher education
- > Case studies on strategic innovation
- > Identifying and pioneering innovations
- > Driving strategic innovations in higher education
